

EVERGREEN TREES 2020

Picea abies

Norway Spruce Zone 2. 80-100 ft. 30-50 spread. Rapid grower. Excellent for screening or specimen plant in landscape.

Picea glauca 'Densata'

Black Hills Spruce Zone 2. 20-40 ft. Slow grower. Much denser and more ornamental than the White Spruce

Picea glauca

White Spruce Zone 2. 70' tall and 20' wide. Highly regarded for landscape use. Can take moist soil and handle high winds.

Picea pungens glauca

Colorado Blue Spruce Zone 3. 60 ft. 20-25 ft. spread. Best known in spruce family for it's hardiness and bluish color.

Picea pungens 'Baby Blue'

Baby Blue Spruce Zone 3. 60' high x 15' wide. Blue intensifies with age. Uniform growth that never needs pruning.
